

Innovators in Mitochondrial Health

Growing interest in mitochondrial health is reshaping nutraceutical innovation, positioning **Kaneka Ubiquinol™** as a key foundational ingredient for brands developing evidence-driven formulations.

About Kaneka Ubiquinol™

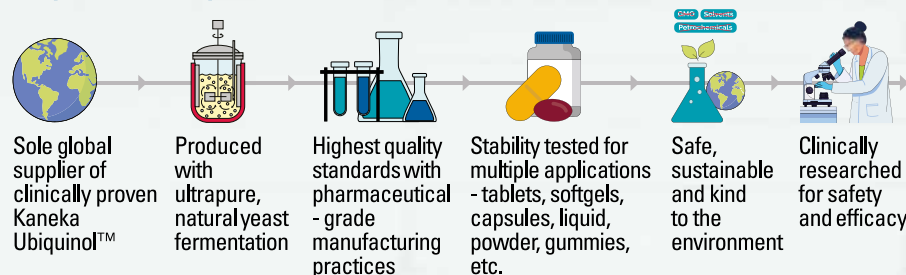

Kaneka Ubiquinol™ is the **Mitochondrial Health Category Sponsor for Vitafoods Europe 2026** and is the trusted manufacturer and sole global supplier of clinically proven Ubiquinol. It is produced via award-winning, patented Japanese natural yeast fermentation and pharmaceutical-level manufacturing, ensuring quality, traceability and sustainability.

Mitochondrial Health

Ubiquinol is a bioactive, bioavailable form of coenzyme Q10 (CoQ10), vital for mitochondrial energy production and cellular defense. It is the only CoQ10 form with potent lipid-soluble antioxidant activity.

Across the European nutraceutical landscape and globally, there is growing interest in healthspan - not just living longer but staying healthier for longer, starting at the cellular level.

Why Kaneka Ubiquinol™?

Kaneka Ubiquinol™ 100+ clinical studies, 80+ patents and 45+ years of research

Women's Health and Beauty from Within

Ubiquinol supports women's health across every life stage - from preconception to menopause and healthy ageing - supporting energy, skin health, fertility, cognition, cardio-metabolic health and overall vitality.

Ubiquinol supports the skin's energy needs for continuous renewal and acts as a powerful cellular antioxidant, helping protect cells from oxidative stress - a primary cause of skin damage and ageing.

Sports and Active Lifestyle

Mitochondrial health is central to active lifestyles - whether the athlete or weekend warrior. Ubiquinol is a powerful exercise partner, powering energy production, performance and supporting recovery for sustained, active lifestyles.

Kaneka Mitochondrial Innovation Forum

The science of energy

Join us for 15-minute sessions with global experts, translating cutting-edge mitochondrial science into real opportunities for your brand, formulations and NPD pipeline.

Built for brandholders, formulators and marketers who mean business.

Kaneka Ubiquinol™: Your Trusted Innovation Partner

- Demonstrates high stability across multiple formats.
- Bioidentical to the ubiquinol naturally produced in the body, with greater bioactivity and bioavailability than ubiquinone.
- Supported by Kaneka's technical expertise in stability testing, dosage optimisation, regulatory guidance and go-to-market strategy.
