

Beyond the Ingredient: Sourcing Excellence to Power Nutrition

Within its Nutrition business, LEHVOSS Italia distributes LEHVOSS Group's portfolio of scientifically supported branded ingredients, essential nutrients, and PHARMAGNESIA® minerals across food supplements, functional foods, and animal health sectors. Driven by a commitment to science and quality, LEHVOSS Italia supports customers throughout finished product development.

Your Partner in Science-Led Raw Materials

The company delivers a comprehensive nutritional portfolio featuring **over 25 clinically researched, trademarked ingredients**, from leading global manufacturers. Among these, **OptiMSM®** stands out as a scientifically researched MSM brand noted for its purity and benefits in beauty, joint health and exercise recovery. The range also includes botanicals such as **WokVel®, Univestin®, and AmLexin™**, designed to support joint health.

For optimal cognitive function, **Longvida®** Optimised Curcumin® delivers free curcuminoids to support brain health.

Additionally, **Bacognize®** bacopa promotes both cognitive performance and sleep quality, while **Witholytin®** ashwagandha assists with fatigue and stress management.

Benicaros®, a precision prebiotic fibre, offer scientifically backed benefits for immunity and microbiome health, while **Attenutin®** aids respiratory relief and overall lung health.

Pomella® pomegranate provides punicalagins for antioxidant support, skin health and skin microbiome.

PureWay-C® offers an advanced vitamin C with superior absorption and retention.

Marine ingredients such as **Zooca® Calanus® Oil** are innovative lipid solutions, supported by research on metabolic health, whereas leading brand **Golden Omega®**

offers a range of fish oil concentrates which are Orivo® verified for purity and origin. **PureSea®**, a sustainable, nutrient-rich seaweed ingredient, is recognised for supporting six EFSA Health Claims.

These brands exemplify **LEHVOSS Nutrition's evidence-based approach**, offering differentiated, science-led active ingredients to serve diverse health needs and applications.

Your Trusted Source for High-Quality Materials

Quality and reliability are central to LEHVOSS Nutrition, in particular to **PHARMAGNESIA®**, the dedicated LEHVOSS brand for high-purity minerals in nutritional supplements, produced according to pharmacopeia and food regulations—meeting the strictest European standards for supplements. **PHARMAGNESIA®** stands for robust quality, built on proprietary specifications, thorough documentation, HACCP systems, and long-term partnerships with qualified manufacturers. Supported by a dedicated expert European team, **PHARMAGNESIA®** is a trusted reference for premium mineral ingredients in supplements.

Essentials by LEHVOSS complements the ingredients' offer with a curated range of essential nutrients and standard raw materials, selected for quality, compliance, and reliability. **Essentials by LEHVOSS** ensures dependable solutions for day-to-day formulations, backed by expertise and secured long-term supply.

Revealing the True Value of Actives

Through clear technical and marketing documentation, transparent positioning, and application expertise, the company translates scientific and technical features into tangible product benefits, enabling brands to compete effectively while maintaining compliance and credibility.

Insights That Drive Innovation in Active Nutrition

With deep market knowledge and awareness of emerging trends, LEHVOSS Nutrition acts as an innovation partner.

From concept to market positioning, the expert sales, product management and marketing teams offer insights that help turn ideas into successful, science-based products.

The ingredients' range includes solutions for **cellular health, gut health, specialised women's health, brain support, longevity, beauty and wellness, active lifestyles, metabolic control, adaptogens and more.**
